

EyeKandy Kandy Concentrate

EKK Series

Description

The “EKK” series candy concentrates are our true EyeKandy dyes and pigments in a concentrated liquid form for easy dispensing. These concentrates are very useful for tinting existing candy colors or for adding depth of color to SlikBase metallic, and pearl colors creating more “candy-like” basecoat colors. To protect the “EKK” dye and pigments, use of a high solids, UreChem clear and storage inside or under a UV protected cover when not in use is recommended for best longevity.

Safety

Read all SDS, and label warnings before using this product. For professionally trained painters using proper personal protective equipment. When mixed with other products this product will have hazards of all components. Keep away from extreme heat, sparks, open flames or any other potential ignition sources. Wear all personal protective equipment including the recommended respirator, gloves, and protective eyewear at all times including when opening, mixing/pouring, and applying material. When mixed for use this product contains isocyanates. Persons who have experienced reactions or sensitivity to isocyanates should not use or be exposed to this product. **KEEP OUT OF REACH OF CHILDREN.** In case of chemical or medical emergency call ChemTel 24/7 at 1-800-255-3924 and/or 911.

Components

EKK Series Concentrate
EKU, EKB, or KGC Series
SlikBase Color

Eyekandy Kandy Cncentrate
EyeKandy Candy Color
SlikBase Pearl or Metallic Color

Mixing Instructions

Add up to 15% EKK concentrate by volume to ready to spray Slikbase, or EyeKandy Color just prior to spraying. Always spray a test panel to check effect before using on your project.

Not recommended for combining with intercoat clear or topcoat clear for creating candy colors. EKV, EKB, and KGC candy colors provide greater durability and stability than blending candy concentrates with clear to make candy.
